

There's A Place

Lyrics: Lou DiSanto

There's a place I know where we can go,
It's a place that's deep inside;
open your eyes and you can see through another door,
open your heart and let it guide.

There's a place I know where we can go,
it's a place you'll love to be;
just take the time and you can get to the other side,
you are the one who holds the key.

The only thing you'll ever need is the love that's in your heart,
the only thing you need to do is dare to make a start;
the only one who can get you there has always known the way,
be the best you can, take the chance today.

There's a place I know where we can go,
It's a place that's deep within;
open your eyes and you can see through another door,
open your heart and let love in,
There's a place I know where we can go, we can go!

The only thing you'll ever need is the love that's in your heart,
the only thing you need to do is dare to make a start;
the only one who can get you there has always known the way,
be the best you can, take the chance today.

There's a place I know where we can go,
It's a place that's deep within;
open your eyes and you can see through another door,
open your heart and let love in, let love in.
