

Time Is Singing

Lyrics: Harlan Richardson

Time is singing, always singing,
life is singing songs to lift high our hearts,
with words of joy and praise for all to hear,
Time is singing, is singing with us.

Voices past bringing wisdom,
While the path that brought us here grows wide,
Where friends new and old walk side by side,
Time is singing, always singing with us.

With heart and mind
we welcome all to share a future,
a future both compassionate and fair,
a future to make of humankind one family.

Led by passion, the passion of our principles,
the ardent love of those who came before,
into the light of this new day, we venture on.
Time is singing, al-ways singing with us.
